## INSTRUCTIONS FOR OPERATION OF DIAL TELEPHONES

### GENERAL

Obtain the correct number from the directory before dialing.  
Do not dial until you hear the dial tone, a steady humming sound.  
If your finger slips when dialing, or if you make a mistake, hang up the receiver a few seconds and begin again.  
Do not move the receiver hook or dial while talking.  
If the number dialed is busy a "buzz-buzz-buzz" sound will be heard. Hang up the receiver, wait a reasonable time and dial the number again.  
If the number dialed is not busy, a frequent "burr-rr-ing" sound will indicate that the number is being rung.

#### CALLS TO TELEPHONES SERVED BY THE DEPARTMENT OF AGRICULTURE MAIN SWITCHBOARD:

(These telephones are listed in the directory without a Code number.)  
Example-A call for Extension 653.  
Remove receiver.  
Listen for the dial tone.  
Place your finger in the opening over the numeral 6.  
Move the dial clockwise until you strike the finger stop.  
Remove finger and allow the dial to return to normal position.  
Dial the numerals 5 and 3 in order in a similar manner.

#### CALLS TO OTHER TELEPHONES IN THE DEPARTMENT OF AGRICULTURE, BUT NOT SERVED BY THE MAIN SWITCHBOARD:

(A Code number is shown in the directory before these telephone numbers.)  
Dial the Code number ONLY.  
When an operator answers, give her the telephone number, or the name of the person desired, if number is not shown.  
The Codes are as follows:

	Code
Beltsville Research Center	837
Fertilizer Investigation	834
Forest Service (930 F St.)	88
Region 7 (Forest Service)	0
Public Roads	84
Weather Bureau	831

Calls from the above switchboards to the Department of Agriculture Main Switchboard will be handled manually by the telephone operators.

#### CALLS TO OTHER GOVERNMENT DEPARTMENTS:

Do not call Government Departments by their central office number.

Where direct tie lines are provided to other Government departments, code numbers are dialed to reach these organizations.  
A list of direct tie lines to other Government departments is shown on the cover page of this directory, together with their respective Code numbers.  
Upon dialing the code of the organization desired, you will be connected with the proper switchboard operator, who will complete your call. If the tie lines of the Department you are dialing are all busy, you will automatically be connected with the Inter-departmental switchboard operator.  
Example-A call for the Department of Commerce, (Code 832)  
Dial 832 and wait for the answer of the Commerce operator. If the 832 (Commerce) tie lines are all busy, you will receive an answer from the Inter-departmental operator. When she answers, ask for Commerce.  
Where direct lines are not provided, calls are routed through the Inter-departmental (Government) switchboard, which is reached by dialing Code number, 80. When the Inter-departmental operator answers, ask for the Government department with which you desire to be connected.  
CALLS TO OUTSIDE NUMBERS:  
Example-Call to District 6713  
Remove receiver and listen for dial tone.  
Dial the figure "9"; and listen for second dial tone, then dial the first two letters of the Central Office name, and the number.  
If you receive the "busy" signal, hang up for a short interval and dial again.  
LONG DISTANCE AND TOLL CALLS:  
After dial tone is heard, dial the figure "0" (Operator) and give the call to the DEPARTMENT operator.  
SIGNALLING THE OPERATOR TO TRANSFER CALLS:  
Calls originating on dial equipment in Department of Agriculture cannot be transferred by the operators.  
On incoming central office calls and other calls handled by the operator, you may signal the operator to transfer the call to another telephone or for any purpose by moving receiver hook up and down.  
TO REPORT TROUBLE:  
If difficulty of any nature is experienced, dial figure "0" (Operator) or call the Department's Chief Operator by dialing extension "388"
